ABOUT US ——ESTAZZIONE

“ESTAZZIONE” comes from the Italian “Stazione” and Spanish “Estaciones” , which means seasons. To live a happy life all year round and to enjoy the nature, to enjoy love and to be loved, in China, we combine and produce a new word “ESTAZZIONE”.

Therefore, all products of ESTAZZIONE are derived from the Italian and Spanish design concepts and are subject to strict production tests under international quality standards. Our products are mainly exported to Europe and America, Australia, South America and also to other countries, and we got good customer feedback and earn reputation after years of sales abroad. Now, we bring the best products to China with the aim that our Chinese consumers can enjoy the foreign quality and product concept, and let all Chinese consumers enjoy a better life.

ESTAZZIONE mainly include floor tiles, wall tiles, bathtubs, toilets, washbasins, showers, faucets, mosaics, pendants and bathroom cabinets. Products are divided into ten series, nearly 1,000 products for customer selection. Considering the tight and fast rhythm of modern life, we provide a one-stop service for the entire home to avoid the trouble of choosing decoration materials for our consumers. While providing good service, we also provide you a high quality Italian products. Let you enjoy the perfect experience of seclusion and luxury for a Italian style.

Barrier free design is a new maintains by UNITED NATIONS ORGANIZATION who emphasized the planning and design for public space must took the demand of the disabled, elder and patient into the full consideration to create a full love and comfortable modern living environment.

Construction of barrier free environment is a great mark for social development, representing the human civilization and progress. Barrier free design is not only for those who are difficult in walking but also for society to provide an equality of material conditions to everybody.

木纹扶手 Wood grain handrail

可根据客户要求订做各种非标木纹产品。
Able to make any type wood grain handrail according to the require of customer

新工艺（可选择装配） new techniques(Optional assembly)

- 1、底座采用钢板塑料包注，产品更美观。
 - 2、内衬为高强度环保铝合金龙骨。
 - 3、铝合金为双层结构，内有5条加强筋。
 - 4、螺丝等配件为不锈钢专用件。
- 1、 Moulded plate with steel inside,for better look.
 - 2、 Inside tube:environmentally friendly strong aluminum
 - 3、 Double-layer aluminum with special reinforce
 - 4、 Special accessories such as screws and bolts

紧急求助呼叫系统 SOS SYSTEM FOR EMERGENCY

当使用者如厕时发生困难或者危险，可立即按动身边扶手上的呼叫按钮进行求助，按动按钮后呼叫中心会发出声音提示或者警报灯闪烁，呼叫中心设于管理中心，如医院内的护士值班室、居住小区内的物业保安室等。

when the user go to the toilet with difficult or in danger ,he could immediately press the call button beside the armrest for help, after pressing, the call center will issue a voice prompt or warning lights. call center is located in the management center, such as nurse's duty room in hospital, property security room in residential district etc..

ESTAZIONE

不锈钢扶手性能特点：

- 1、采用直径为32mm的不锈钢圆管，材质为国标304[#]，具有抗腐蚀和不生锈等优点。
- 2、所有圆管弧形拐弯处，都为数控弯管机整体加工而成，非焊接产品，拐弯处具有高强度.不生锈和易清洗等优点。
- 3、所有安装螺丝和装饰配件都为不锈钢产品，绝对保证扶手的高强度和高安全性。
- 4、可以根据要求制作成任何颜色，安装简单，适合多种场合。

Characteristics of the stainless steel handrail:

- 1、It's anticorrosion and antirust for we use the International Standard 304# stainless steel(dia. 32mm).
- 2、The corner is high intensity, antirust, easycleaning and so on. All arc-shaped corners are cured by CNC tube bending machine instead of by welded.
- 3、The screw and fittings are all made of stainless steel in order to ensure the high strength and high safety of handrail.
- 4、We can produce the products of any color according to your requirements . They are easy to be installed and applicable to many sites.

外壳性能特点

- 1、采用高聚合物外饰：PVC、PP/ABS、防腐、抗菌；
- 2、内芯优质铝合金专业设计、紧固合理；
- 3、特殊设计的防撞胶条，起到防震、抗冲作用；
- 4、表面皮纹、防火耐光、清洁简易；
- 5、色彩多样、安装简单、适合多种场合作用。

Characteristics of the outer cover

- 1、Adopted high polymer decorations: PVC, PP/ABS; anticorrosion and antibiosis
- 2、The aluminium alloy is professional designed for the inner core. As a result it is sound in fastening.
- 3、Specially-designed anti-impact rubber bars can keep the handrails from being shocked and impacted.
- 4、The surface leather patterns can help it avoid fire and resistant to lighting, featuring in simple.
- 5、Multi color, simple in assembling, applicable to many sites.
